

**ADVANCED SOLUTION FOR
ORDER MANAGEMENT AND
SALESFORCE PERFORMANC**

Modern technology , intelligent management and performance enhancement

The success of all businesses is based on their sales ability, so it's an important concern for distributor companies to organize their sales department. The sales force automation (SFA) software born to help companies to manage and control their sales forces. These are some benefits of a SFA software: order taking management, planning for daily activity of sales forces, archiving customer's history, visitor tracking and so on. After implementing a SFA software, worthful sales forces will be more satisfied as they can show their advantages in compare with others

- ✓ Integration with the financial softwares
- ✓ Support Persian, Arabic and English languages
- ✓ Support for Android and iOS platforms
- ✓ Routing and zoning customers, online tracking and setting up a visit schedule
- ✓ Hot selling support with the ability to connect to the mobile printer for instant invoicing
